

MYERS-SETH PUMP, INC.™

HYDRAULIC RANGE

- AUTO-SHUT DOWN SYSTEMS
- MULTIPLE APPLICATIONS
- HEAVY DUTY TRAILER

- LARGE FUEL TANK
- HIGH RELIABILITY
- POWDER COATED

MODEL: **HYD150**

HYDRAULIC POWER UNITS & SUBMERSIBLE TRASH PUMPS

Myers-Seth Pumps offers a variety of horsepower ranges, engine options, and hydraulic pumps to drive almost any pumping applications. Our power units are mobile with large capacity fuel tanks for extended running times, and can be easily moved over rough terrain, for the toughest pumping applications. As a stand-alone power unit it can be used for multiple applications, such as hydraulic tools, and other hydraulic powered equipment, etc. The submersible trash pumps range from 4" thru 12", also the designed to pump allows it to run dry

without damage and can handle large volumes of water and handle a variety of materials, such as sewage, trash, sludge and slurries, etc. Submersible trash pumps can easily be placed in different situations where a standard centrifugal pump would not be effective. The open impeller design permits and allows unobstructed direct flow of materials in to the pump head. By varying the engine speeds to control the various conditions for maximum efficiency and also reduces wear on the pump head can regulate rate of flow.

TYPICAL PUMP APPLICATIONS

Construction, sewage by-pass quarries, irrigation, dewatering, open pit mining, manholes, drainage, transfer unmping, barge transfer and cleanout, emergency standby.

ADVANCE PUMPING TECHNOLOGY

Specifications: Hydraulic Power Unit

Model:	HYD-150
Engine:	Perkins, 4 Cylinder (Standard)
Pump/Engine Operating Speed:	1,000 to 1,800 Rpm's
Fuel Tank Capacity:	65 Gallons - minimum
Hydraulic Pump:	Gear or Vane
Hydraulic Shutdowns:	High Temp. & Low Oil Shutdown
Hydraulic Oil Reservoir:	55 Gallon
Hydraulic Filter:	Internal 10 Micro Filter, w/indicator
Hydraulic Pump Output:	30 GPM
Hydraulic System:	Pressure Relief and Control Valve
Hose Ports:	1.0" Pressure – 1-1/4" Return
Trailer Components:	DOT Approved
Trailer Axle:	3,500 lbs., Torflex Axle
Tires & Wheels:	15", 6 lug Wheels
Paint System:	Powder Coat
Length:	117.0" (2,972.0 mm)
Width:	72.0" (1,828.0 mm)
Height:	80.0" (2,032.0 mm)
Weight Dry:	2,300 lbs. (1,043 kg)

Note:

Hydraulic Power Unit Supports: Submersible Pumps Heads Size for 4" & 6" Trash Pumps

Options:

Engine Options:	Caterpillar, Cummins, Deutz, John Deere, Kubota, and others
Multiple Hydraulic Circuits	Hose Racks
Hydraulic Brake	Equipment Work Lights
Skid Mount
